

## KEY POINTS

- Quick and easy hydraulic lifting system on a rocker arm with connecting rods
- Oversize central box
- Identical alignment of the coupling head pivot axis and the wide-angle transmission
- 5-rotor assembly with deflectors and counter-cutters
- Damper on KEVLAR-reinforced side wheels, side elements and rocker arm

## SPECIFICATIONS

WORKING WIDTH		<b>4.80</b>	<b>6.40</b>
Overall depth (m)		4.45	4.65
PTO speed (rpm)		<b>1000</b>	
Min. tractor power (hp)		85-240	140-350
Main transmission		Wide angle (homokinetic) - Star tube	
Cat. 2 coupling		Pivoting clevis hitch	
Rotor		5 rotors - Single blade - 2 cutters	5 rotors - Triangular - 3 cutters
Adjustable terrain tracking		Wheels - Side skids with bol-on wear-resistant plates in <b>HARDOX</b> <small>WEAR PLATE</small>	
Cutting height (mm)		30 to 280	
Weight (kg)		3700	3950

## OPTIONS

Set of upper cutters  
Blower with flow regulator  
Rubber flap

Pivoting front wheels  
Time and surface area meter
