

# FLOATING COUPLING SCRAPER

## KEY POINTS

- Floating coupling
- Sturdy or extra-sturdy scraper body, depending on the model (Junior or Senior scraper).
- Assemblies of mechanically-welded components and strengthening beam
- Central, reversible, reinforced rubber scraper blade (double blade on Senior model)

## SPECIFICATIONS

| Working width | Overall width | Type of coupling                            | Blade and skids                               | Side   |        |            | Weight |        |
|---------------|---------------|---|---|--------|--------|------------|--------|--------|
|               |               |   |   | Depth  | Height | Thick-ness |        |        |
