

SENIOR SERIES SCRAPERS

KEY POINTS

- Sturdy assemblies of folded and mechanically-welded components
- The dimensions of the Senior scrapers make them the largest on the market
- Double, reversible, reinforced rubber scraper blade
- Strengthening beam and stiffening fold
- Several hitching options: on pins or, as an option, on a perforated or semi-automatic drawbar

SPECIFICATIONS

Working width	Overall width	Coupling	Blades and skids	Side			Weight
				Depth	Height	Thickness	
2.25 m	2.34 m	Cat.2 clevis hitch ø 28 rods	Reversible reinforced rubber, 65 shores	1.25 m	0.75 m	8 mm	432 kg
2.50 m	2.59 m						452 kg
3.00 m	3.09 m						488 kg

OPTIONS

Plate for coupling to perforated drawbar	Semi-automatic coupling with or without coupling bar
